

CATALOG

General Product Notes: Packing standard shown as: 1 PCS per sterile unit. Pack refers to inner box quantity. Carton refers to master shipping carton. Packing may vary by model or length.

The background features a dark blue diagonal band across a white background. A teal-colored rounded rectangular bar is positioned in the top-left corner, and another identical bar is in the bottom-right corner. A faint, semi-transparent image of an infusion set is visible in the center, showing a drip chamber, tubing, and a needle.

INFUSION SETS

Code Product : T-1001

Name Product : Infusion Set

Description : Sterile gravity infusion set

Product Use : IV fluids and medications

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 600

Code Product : T-1004

Name Product : Infusion Set SUS Plus

Description : Advanced flow infusion set

Product Use : Continuous IV therapy

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 600

Code Product : T-1002

Name Product : Infusion Set

Description : Sterile gravity infusion set

Product Use : IV fluids and medications

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 600

Code Product : T-1005

Name Product : Infusion Set

Description : Standard infusion set

Product Use : Routine IV therapy

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 650

Code Product : T-1003

Name Product : Infusion Set SUS

Description : Enhanced tubing infusion set

Product Use : Smooth IV infusion

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 600

Code Product : T-1006

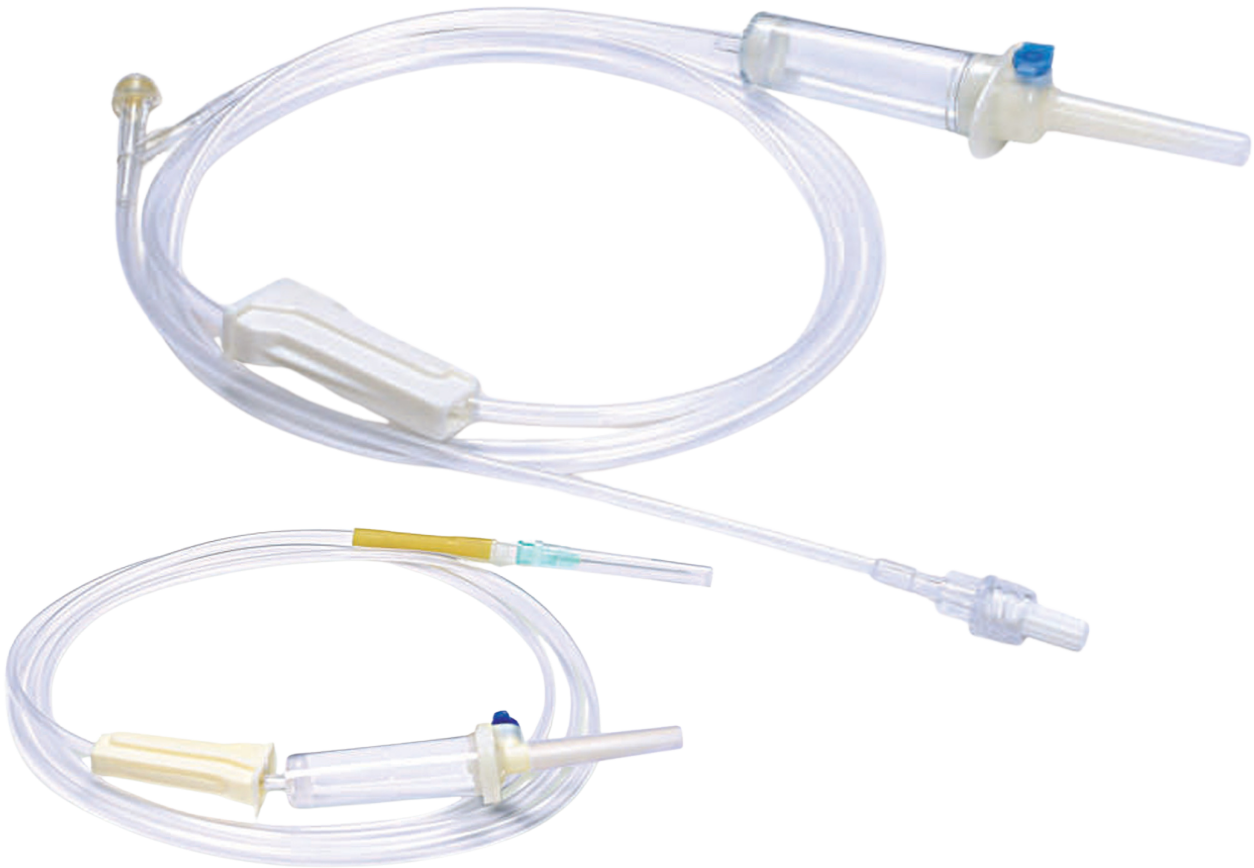

Name Product : Infusion Set

Description : Standard infusion set

Product Use : Routine IV therapy

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 550

Code Product : T-1007

Name Product : Infusion Set SUS

Description : Reinforced tubing set

Product Use : Stable IV infusion

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 600

Code Product : T-1008

Name Product : Sharp Infusion Set Non Vented

Description : Rigid container infusion set

Product Use : IV infusion from bottles

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 500

Code Product : T-1010

Name Product : Infusion Set

Description : Standard infusion set

Product Use : Routine IV therapy

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 50, Carton 600

Code Product : T-1014

Name Product : Infusion Set ECO

Description : Cost optimized infusion set

Product Use : High volume IV use

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 600

Code Product : T-1015

Name Product : Infusion Set Microdrip

Description : Microdrip infusion set

Product Use : Pediatric IV therapy

Available Sizes : Microdrip

Packaging Standard : 1 PCS, Pack 25, Carton 500

Code Product : T-1016

Name Product : Infusion Set Microdrip

Description : Microdrip infusion set

Product Use : Pediatric IV therapy

Available Sizes : Microdrip

Packaging Standard : 1 PCS, Pack 25, Carton 500

Code Product : T-1018

Name Product : Infusion Set Microdrip

Description : Precision microdrip set

Product Use : Pediatric IV therapy

Available Sizes : Microdrip

Packaging Standard : 1 PCS, Pack 25, Carton 600

Code Product : T-1101

Name Product : PVC Free Infusion Set

Description : PVC and DEHP free set

Product Use : Sensitive drugs

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 300

Code Product : T-1201

Name Product : Lightproof Infusion Set

Description : Light protected tubing

Product Use : Photosensitive drugs

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 300

Code Product : T-1301

Name Product : Needle Free Infusion Set

Description : Needle free access set

Product Use : Safer IV infusion

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 400

Code Product : T-1401

Name Product : Infusion Set with Flow Regulator and Filter

Description : Flow control and filtration

Product Use : Controlled IV infusion

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 300

Code Product : T-1501

Name Product : Infusion Set with In Line Filter

Description : Filtered infusion set

Product Use : Particle protection

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 300

Code Product : T-1601

Name Product : Infusion Set with Dial Flow Regulator

Description : Adjustable flow set

Product Use : Controlled IV infusion

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 300

Code Product : T-1701

Name Product : Infusion Set with Dial Flow Regulator

Description : Adjustable flow set

Product Use : Controlled IV infusion

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 300

Code Product : T-1901

Name Product : Infusion Set with Airstop Filter

Description : Air protection set

Product Use : Prevent air embolism

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 500

Code Product : T-1801

Name Product : Infusion Set with Three Way Stopcock

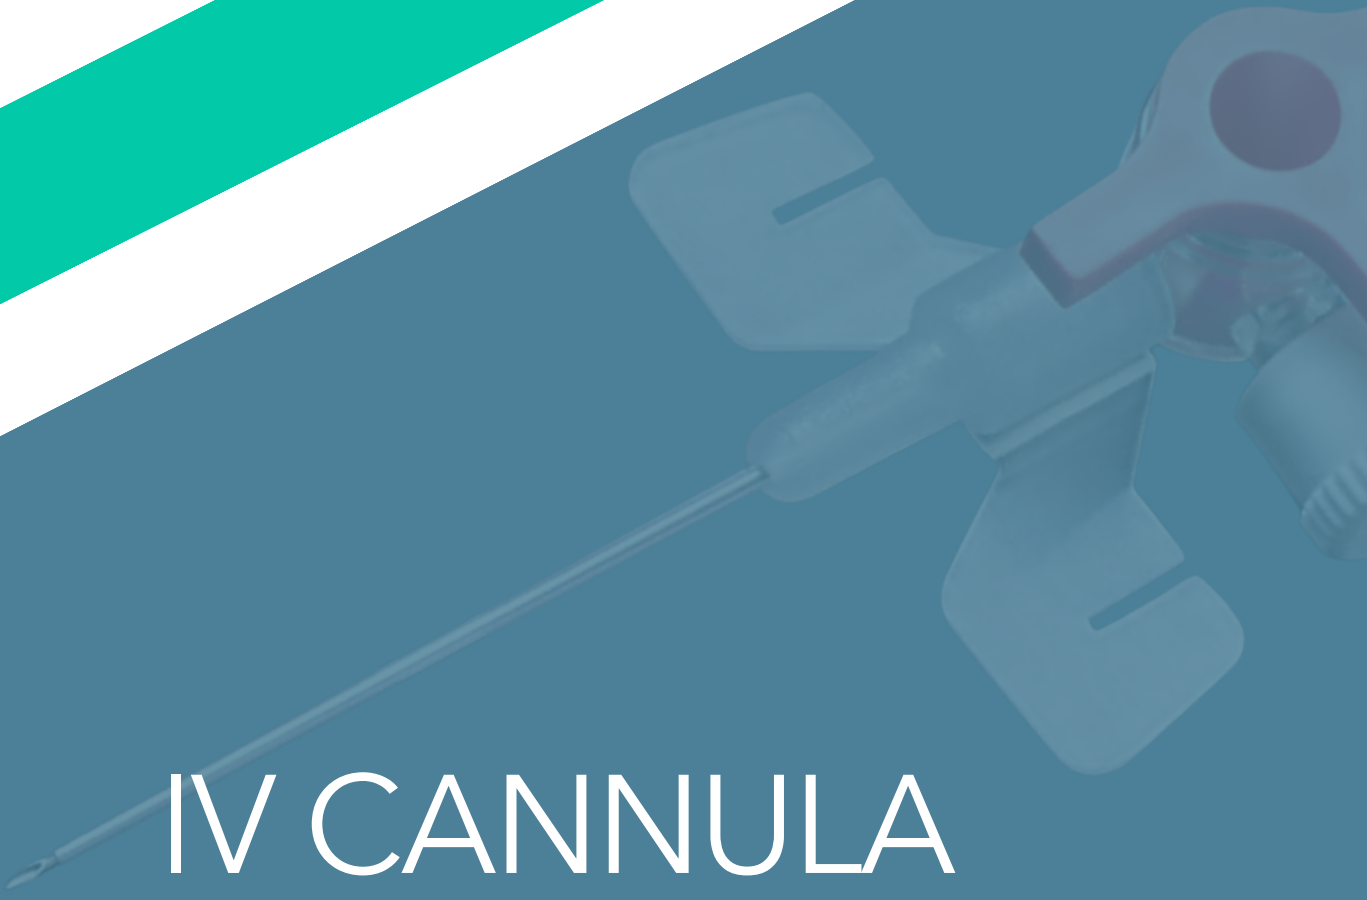

Description : Stopcock integrated

Product Use : Flow diversion

Available Sizes : Standard drip

Packaging Standard : 1 PCS, Pack 25, Carton 300

A medical IV cannula and its connector are shown in a faded, blue-tinted style. The cannula is a long, thin needle with a beveled tip, extending from the connector. The connector is a plastic device with two side ports and a central port where the cannula is attached. The background features a dark blue diagonal band and two teal-colored rounded rectangular shapes, one in the top left and one in the bottom right.

IV CANNULA

Code Product : 1045.1

Name Product : IV Cannula with Wing and Injection Port

Description : Peripheral IV catheter

Product Use : Venous access with injection

Available Sizes : 14G to 26G

Packaging Standard : 1 PCS, Pack 100, Carton 1000

With Port & With Wings

Code Product : 1045.2

Name Product : IV Cannula without Wing and Port

Description : Peripheral IV catheter

Product Use : Basic venous access

Available Sizes : 14G to 26G

Packaging Standard : 1 PCS, Pack 100, Carton 1000

Without Part & With Wings

Code Product : 1045.3

Name Product : Pen Type IV Cannula

Description : Pen style IV catheter

Product Use : Smooth insertion

Available Sizes : 14G to 26G

Packaging Standard : 1 PCS, Pack 100, Carton 2000

Without Port & Without Wings

Code Product : 1045.4

Name Product : IV Cannula with Wing without Port

Description : Winged IV catheter

Product Use : Secure access

Available Sizes : 14G to 26G

Packaging Standard : 1 PCS, Pack 100, Carton 1000

Size	Color	Catheter	Size	Length	Flow Rate
14 G	Orange	1.7	2.1	45	270
16 G	Grey	1.3	1.7	45	180

26 G	Violet	0.4	0.6	19	15

Code Product : T-1046.2

Name Product : Pen Type Safety IV Cannula

Description : Safety IV catheter

Product Use : Safe venous access

Available Sizes : 18G to 24G

Packaging Standard : 1 PCS, Pack 100, Carton 2000

Code Product : T-1046.3

Name Product : Safety IV Cannula with Wings

Description : Safety IV catheter

Product Use : Safe venous access

Available Sizes : 18G to 24G

Packaging Standard : 1 PCS, Pack 100, Carton 1000

Code Product : T-1046.4

Name Product : Safety IV Cannula without Wings

Description : Safety IV catheter

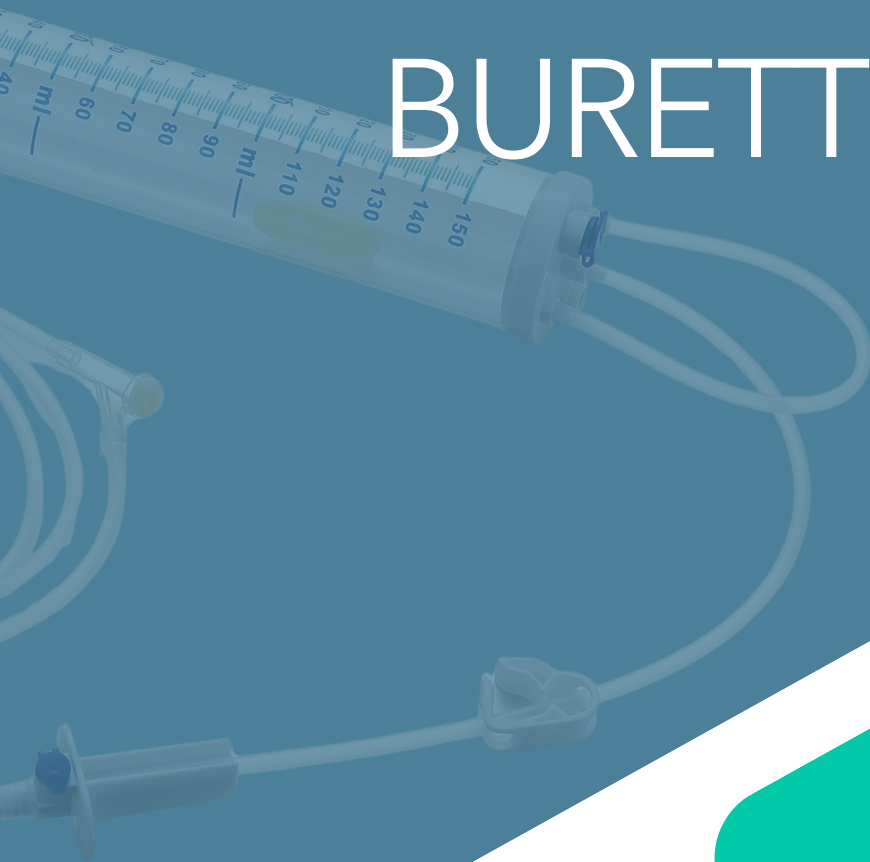

Product Use : Safe venous access

Available Sizes : 18G to 24G

Packaging Standard : 1 PCS, Pack 100, Carton 1000

MEASURED VOLUME BURETTE SET

Code Product : T-1051

Name Product : Measured Volume Burette Set

Description : Controlled volume burette set

Product Use : Pediatric IV control

Available Sizes : 150 ml

Packaging Standard : 1 PCS, Pack 20, Carton 120

Code Product : T-1053

Name Product : Measured Volume Burette Set

Description : Controlled volume burette set

Product Use : Pediatric IV control

Available Sizes : 110 ml

Packaging Standard : 1 PCS, Pack 20, Carton 120

3 WAY STOPCOCK

Code Product : T-1058

Name Product : Three Way Stopcock

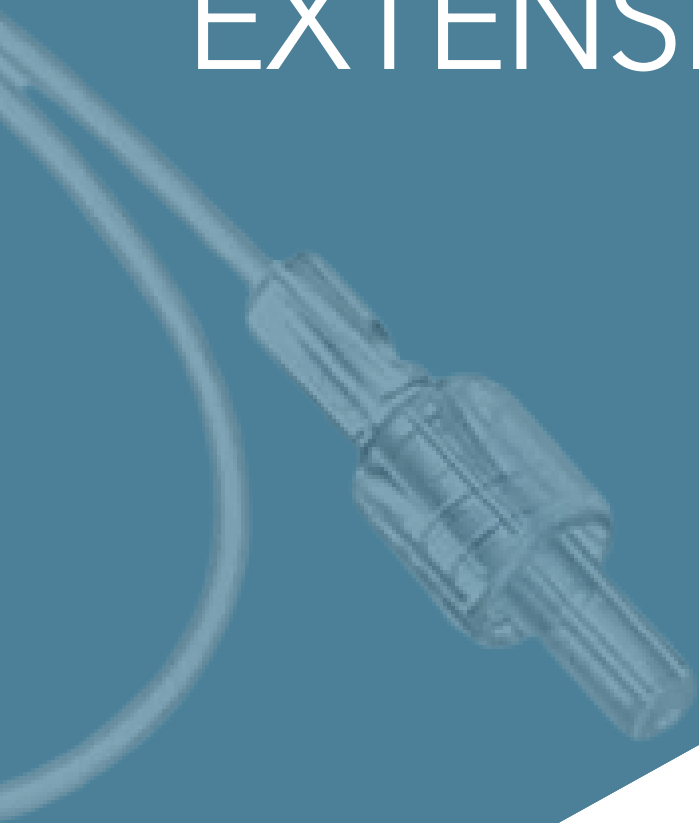

Description : Three port IV valve

Product Use : Flow control and diversion

Available Sizes : Standard luer

Packaging Standard : 1 PCS, Pack 100, Carton 1000

EXTENSION TUBES

Code Product : T-1056

Name Product : Extension Tube

Description : IV extension tubing

Product Use : Extend IV line

Available Sizes : 25 cm to 500 cm

Packaging Standard : Variable by length.

Code Product : T-1057

Name Product : Extension Tube with Flow Regulator

Description : Flow controlled extension

Product Use : Controlled IV extension

Available Sizes : Not specified in sheet

Packaging Standard : 1 PCS, Pack 30, Carton 360

Code Product : T-1059

Name Product : Extension Tube with Stopcock

Description : Extension with stopcock

Product Use : Flow diversion

Available Sizes : 10 cm to 200 cm

Packaging Standard : Variable by length.

Code Product : T-1060

Name Product : Pressure Monitoring Line

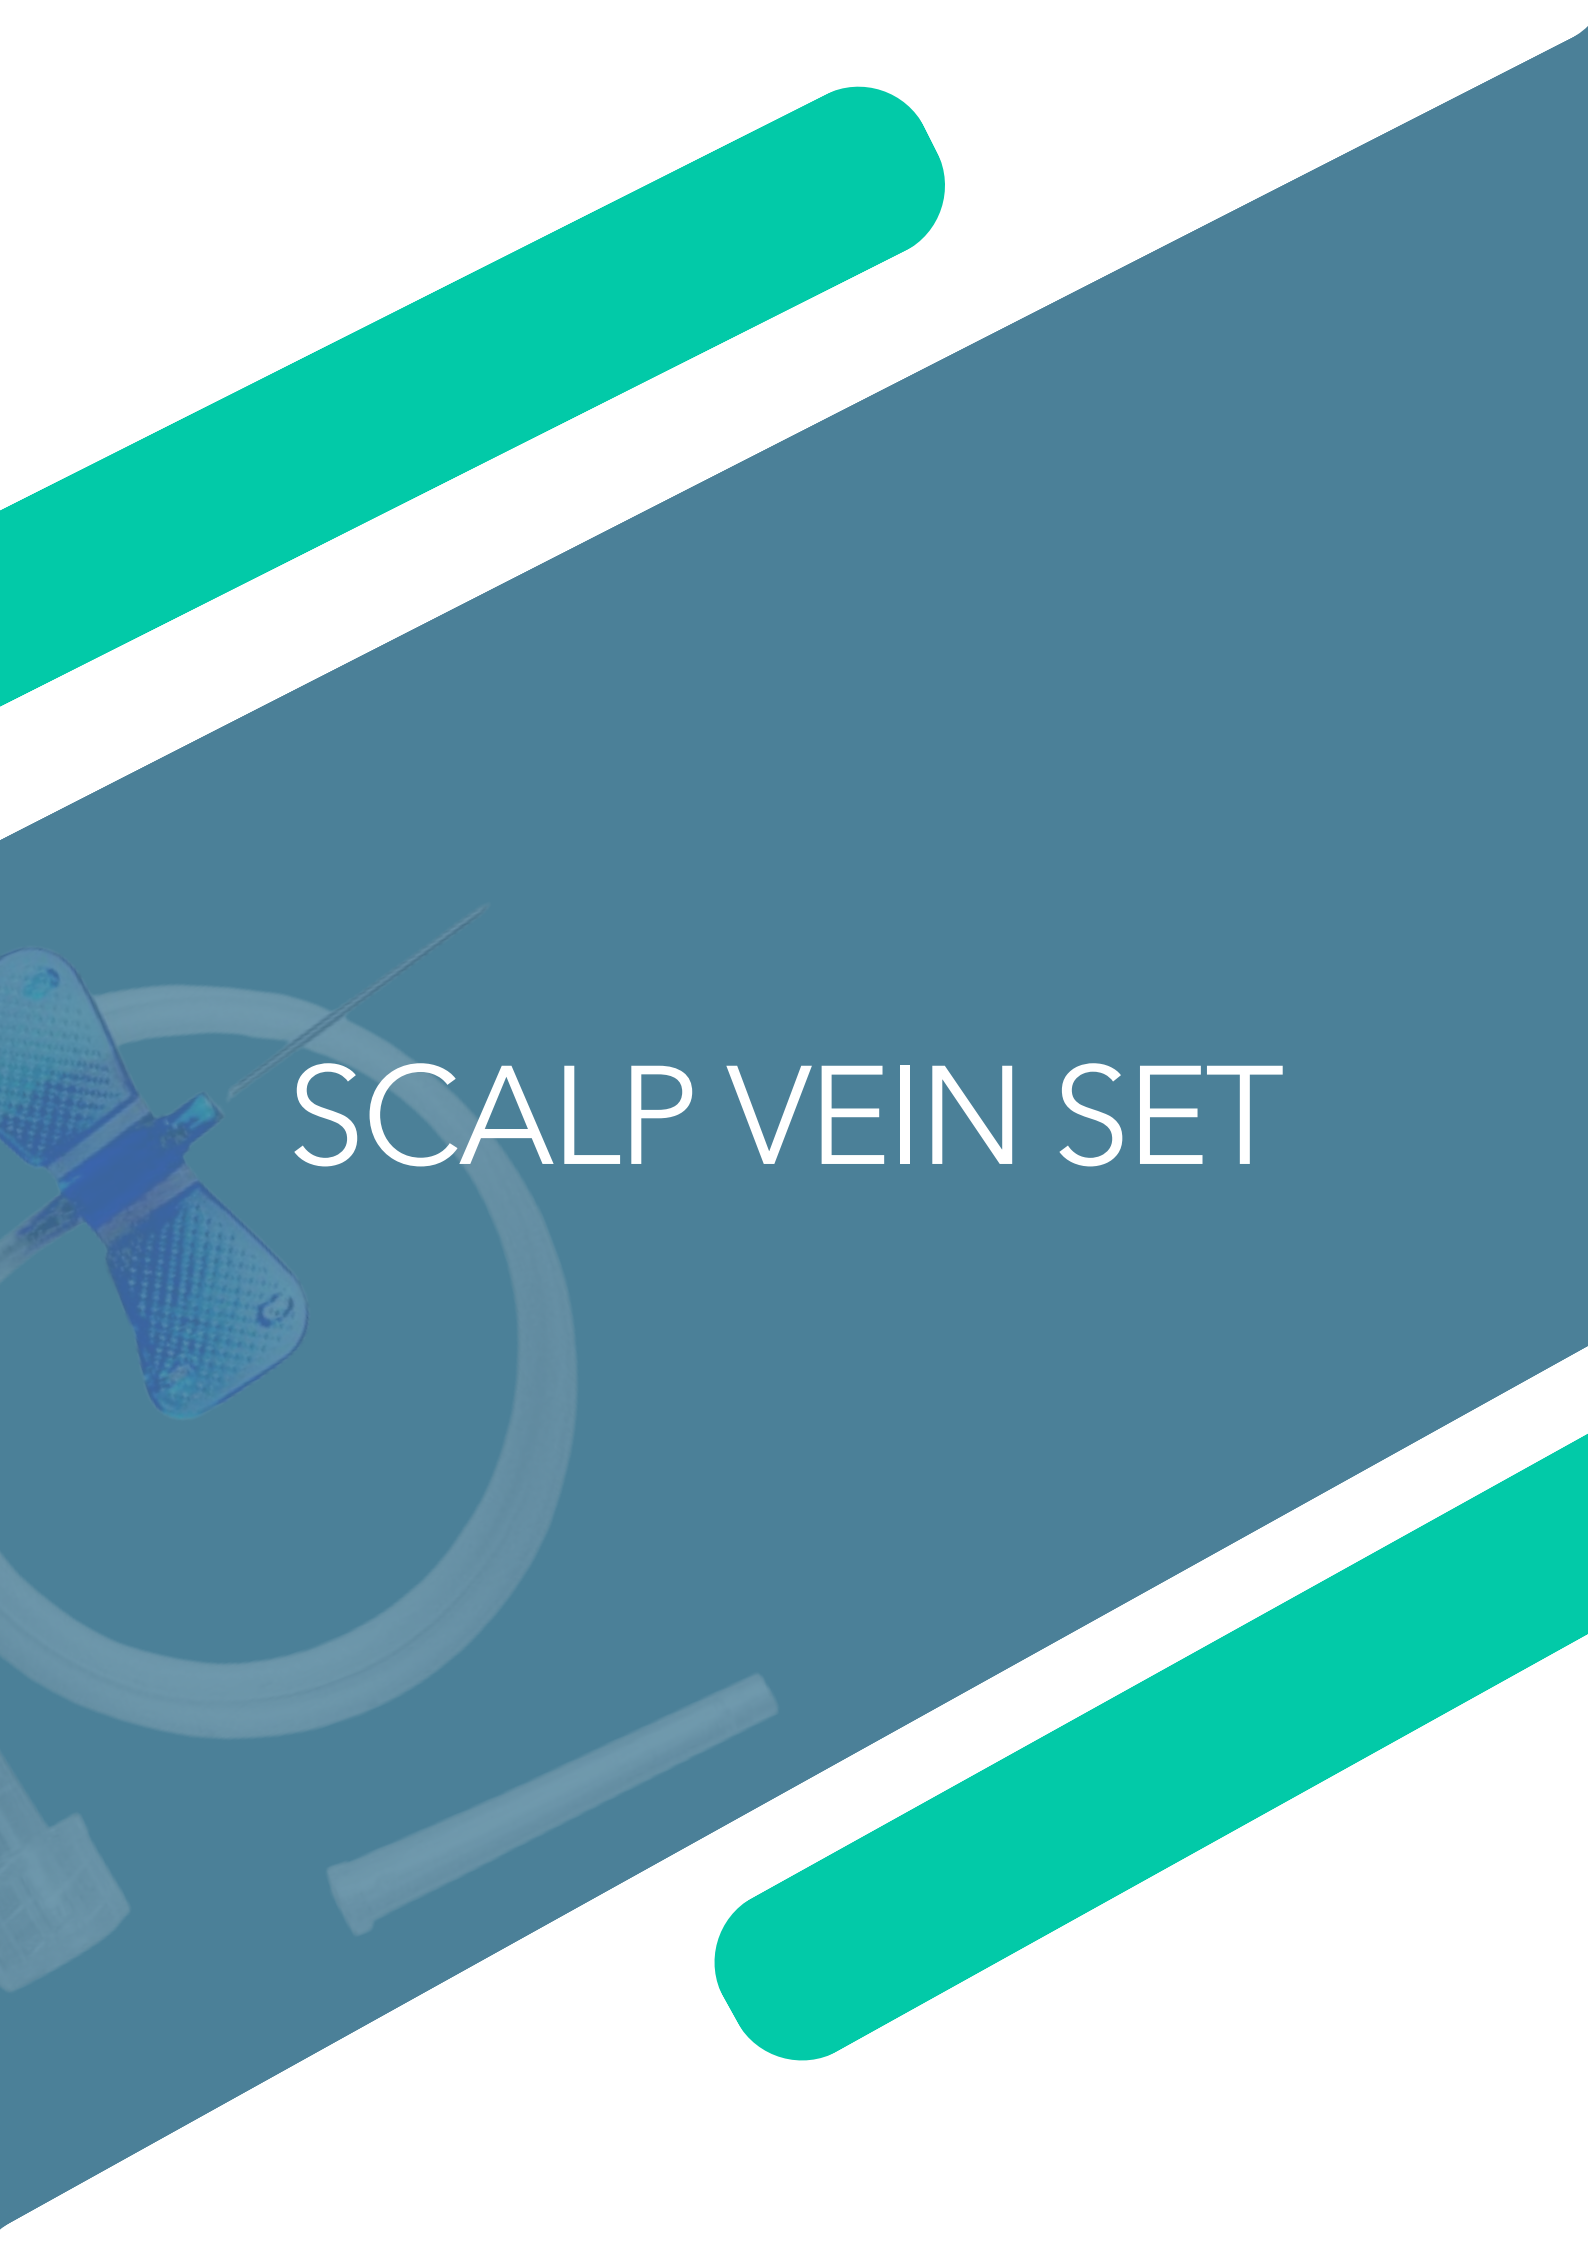

Description : High pressure extension

Product Use : Pressure monitoring

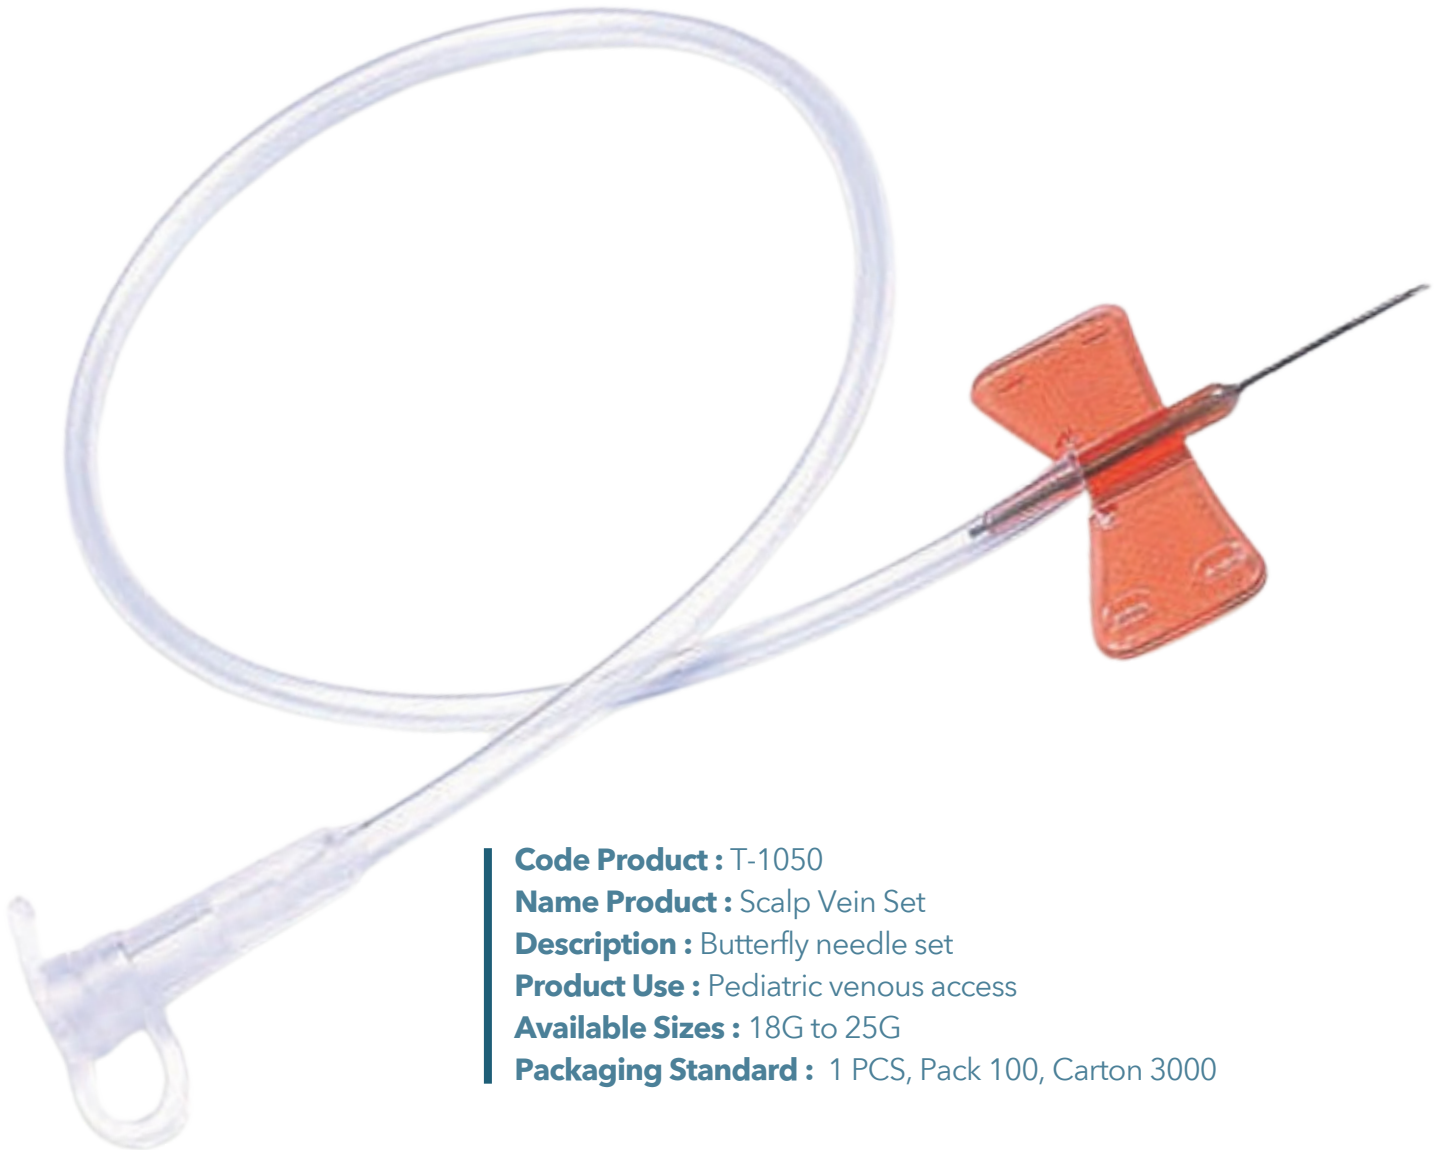

Available Sizes : 50 cm to 200 cm

Packaging Standard : Variable by length.

SCALP VEIN SET

Code Product : T-1050

Name Product : Scalp Vein Set

Description : Butterfly needle set

Product Use : Pediatric venous access

Available Sizes : 18G to 25G

Packaging Standard : 1 PCS, Pack 100, Carton 3000
